

Junior Software Developer

Company: WebDev Agency

Location: Austin, TX (On-site)

Salary: \$60,000 - \$80,000

About WebDev Agency:

WebDev Agency is a digital agency specializing in building custom web applications for clients across various industries. We're looking for enthusiastic junior developers to join our team and grow their careers.

Position Overview:

We're seeking a Junior Software Developer to contribute to our client projects. This is an excellent opportunity for recent graduates or developers with 0-2 years of experience to learn from experienced mentors and work on real-world projects.

What You'll Do:

- Develop and maintain web applications using JavaScript and React
- Write clean, efficient code following best practices
- Collaborate with design team to implement user interfaces
- Fix bugs and improve existing functionality
- Participate in Agile ceremonies (standups, retrospectives, sprint planning)
- Learn new technologies and frameworks as needed
- Write unit tests and documentation

What We're Looking For:

- Bachelor's degree in Computer Science or related field
- 0-2 years of professional software development experience
- Knowledge of HTML, CSS, and JavaScript
- Familiarity with React or similar frontend framework
- Basic understanding of backend development (Node.js preferred)
- Experience with Git version control
- Strong problem-solving abilities
- Eagerness to learn and grow
- Good communication skills

- Ability to work in a team environment

Bonus Points:

- Personal projects or portfolio
- Internship experience
- Knowledge of TypeScript
- Experience with databases (SQL or NoSQL)
- Contributions to open-source projects

What We Offer:

- Competitive entry-level salary
- Mentorship from senior developers
- Training and professional development
- Health benefits
- Friendly and supportive work environment
- Opportunity for rapid growth
