ALEX CHEN

Junior Software Developer

alex.chen@email.com | (555) 456-7890 | github.com/alexchen

OBJECTIVE

Entry-level software developer seeking to leverage programming skills and enthusiasm for learning in a challenging role. Recent computer science graduate with hands-on project experience.

EDUCATION

Bachelor of Science in Computer Science | State University | 2024

- GPA: 3.5/4.0

- Dean's List: Fall 2022, Spring 2023

- Relevant Courses: Data Structures, Web Development, Database Management, Software Engineering

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Frameworks: React, Spring Boot, Node.js

Databases: MySQL, PostgreSQL

Tools: Git, VS Code, IntelliJ, Postman

Other: REST APIs, Agile methodology, Linux

PROJECTS

E-Commerce Website (Capstone Project)

- Built full-stack e-commerce platform using React and Node.js

- Implemented user authentication and shopping cart functionality

- Deployed on AWS EC2 with MySQL database

- Team size: 4 developers

Task Management App

- Created a to-do application with React and Firebase

- Features include user login, task CRUD operations, and due date reminders

- Over 100 active users

Weather Dashboard

- Developed weather app consuming OpenWeather API

- Displays 5-day forecast with interactive charts

- Built with vanilla JavaScript and Chart.js

EXPERIENCE

Software Development Intern | LocalTech Solutions | Summer 2023

- Assisted in developing features for internal CRM system

- Fixed 20+ bugs in legacy codebase

- Participated in daily standups and sprint planning

- Technologies: Java, Spring Boot, PostgreSQL

Teaching Assistant | State University CS Department | 2022-2023

- Helped students with programming assignments in Java

- Held office hours and graded assignments

- Assisted professor with course material preparation

ACTIVITIES

- Member, Computer Science Club

- Participant, University Hackathon 2023 (2nd Place)

- Volunteer, Code.org Hour of Code
